

2025 Youth Stock Class

Justin Buchanan: (937) 533-9091

Jordan Rutherford: (513) 678-8488

1. Any 1980 and newer 2wd front wheel drive passenger car only
2. All vehicles must strip off all plastics, glass, headlights, taillights, and anything else that could come off onto the track during the show.
3. All vehicles must remain stock, ABSOLUTELY NO WELDING ANYWHERE EXCEPT AS STATED IN THESE RULES!
4. Bumpers must remain stock, do NOT alter the bumper in any way. Factory bumper shocks must remain in the factory location. You may remove the rear bumper and shocks. There is NO welding to be done on the bumpers.
5. Batteries may be left in the stock location and spray foam may be added around the battery. You may also move the battery to the passenger floorboard or seat. Please make sure the battery does not move and is securely mounted.
6. If the factory gas tank is in front of the rear axle, you may leave it there. If it's behind the axle, you must move it to the rear seat area. All factory gas tanks may be moved inside but completely secured. Aftermarket tanks may be used but must be mounted to the sheet metal only.
7. All doors may be wired or chained in 6 places max per seam.
8. Trunks and hoods may be wired or chained in 6 places total, sheet metal to sheet metal only. Nothing to the frame or bumpers. If you remove the trunk lid you lose that wire or chain.
9. Rear seat bar may be added. It may be welded to the post. This is only to stop the sides from coming in, NOT to help any other part of the car.
10. The Driver's door only may have a plate welded to the outside. This is for driver safety.
11. DOT tires only. Stock wheels only. All wheel weights must be removed. Only tubes and air are permitted inside the tires.

These rules are cut and dry, you should not have to call to ask many questions on this class.

If it does not say you can do it, then it means YOU CANNOT do it. Quick, easy build.
